## Nest Box design for Ringtail Possums and Brushtail Possums

Possum box Plan view

Box should be made from 7-9 mm Marine ply to ensure weather proofing , you can use normal ply but you must paint box with 2-3 coats of acrylic paint to help with weatherproofing. Drill 1 single 3mm hole in the middle of base to allow water to escape, should it get wet during storm conditions, however over hang of lid should prevent rain entry.
