## Nest Box design for Ringtail Possums and Brushtail Possums

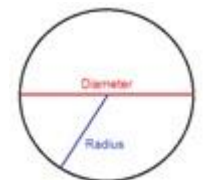

Possum box Plan view

For Ringtail possum box take away 120mm from height of box. use Ringtail entry hole alternative pattern plan pictured below left.

A block of wood is place on the back of box to help it sit in the correct position against a tree or wall.

Nest box entry hole measurements refer to Diameter

Box should be made from 7-9 mm Marine ply to ensure weather proofing , you can use normal ply but you must paint box with 2-3 coats of acrylic paint to help with weatherproofing drill 1 single 3mm hole in the middle of base to allow water to escape, should it get wet during storm conditions, over hang of lid should prevent rain entry
